## VINITALY 2021 TO TAKE PLACE IN VERONA, FROM 20 TO 23 JUNE

A 'restart' event in the name of business, ensuring an international and highly profiled scope to bring the world of wine together in a safe exhibition venue of 300,000 square meters. This is the project summary for the 54th Vinitaly, scheduled at Veronafiere on 20-23 June 2021. Vinitaly, in partnership with ICE-Italian Trade Agency, is implementing significant investments in a flexible project which can be modulated in relation to scenarios and equally be able to intercept all changes in the international context that may arise over the next four months. The primary objective of Vinitaly 2021 concerns important initiatives focusing on incoming trade operators and buyers from the main target countries.

## MULINO BIANCO PRESENTS READY-TO-EAT PANCAKE

In conjunction with the World Pancake Day, on the past 16 February, the Mulino Bianco brand by Barilla took the opportunity to launch its new product: ready-to-use pancakes. The company explained that they are made with flour, sugar, eggs from free-range hens and 100% fresh Italian milk. No palm oil, no preservatives or dyes. In each package there are 8 pancakes in 4 single portions of 2.

## GRAPPA NOW PROTECTED IN CHINA

Grappa is among the 26 Italian products with Geographical Indication (GI) that will be officially protected in China from 1 March 2021. This was established by the bilateral agreement signed between China and the European Union for the protection of a list of 200 GI (100 from China and 100 from the EU) from imitations and usurpations in their respective territories. The distillate is also among the 40 Italian GI included in the 8th EU-Thailand labour dialogue on intellectual property, to be held on March 4 2021 as part of international bilateral agreements.

## BACI PERUGINA LAUNCHES ITS OWN SPREADABLE

The international food chain Nestlé has launched the spread of the iconic Baci Perugina, (chocolate pralines in Italian means 'kisses'), created by Luisa Spagnoli almost One Century ago. The base comes from the famous dome-shaped chocolates, with tiny bits of nuts. Baci Perugina spread, just like the pralines, has its own note hidden inside the cap. Palm oil and gluten free, the cream is sold in a 200 g jar.

## THE PACKAGING OF FABBRI 1905 RECOGNIZED AS FAMOUS IN CHINA

The Fabbri Amarena ceramic jar, as well as the packaging of all products characterized by the unmistakable blue-and-white 'Faenza' decorations of Fabbri 1905, cannot be imitated in China. The Shanghai Yangpu District People's Court has in fact recognized the "high reputation" of the packaging of the Bologna-based company, specialized in sour cherries for the confectionery industry. In 2019, Fabbri (Shanghai) Food Trading Co. initiated a civil litigation against Yi Pai Chocolate (Tianjin) Co. and Beijing Jin Mai Xing Long Food Co., Ltd. claiming the violation of the art. 6.1 of Anti-Unfair Competition Law due to a slavish imitation of its famous packaging. Fabbri exports over 1,300 products to more than 100 countries, for a turnover close to 90 million euros in 2019.

## FERRERO ROCHER AND RAFFAELLO ICE CREAM STICKS ARE BORN

After the Kinder Ice Cream launched in partnership with Unilever, Italian family-owned confectionery giant Ferrero has launched a new range of ice-cream sticks inspired by its famous Rocher and Raffaello pralines, both in the classic and dark versions. The new products are making debut in France and will be distributed first across Europe (Germany, Austria and Spain, alongside Italy).

In the **TRENDING NOW** section we aim to present some of the most recent product launches in the Italian retail market - or that are set to debut soon; as well as products that have been warmly welcomed by customers because of their quality and innovative features.

In this issue of Made in Italy for Asia we focus on one of the strongest trends in both the Italian and international food scene: that of **ready-to-eat meals**. Products designed for quick consumption – both at home or during the lunch break – yet without giving up the taste and nutritional value of a complete, Italian-style dish.

The focus then shifts to two other strong food trends, albeit very different from each other: that of **spreadable sweet creams**, which in recent years has seen the product offer grow exponentially; and that of **vegetable drinks**, characterized by many original and captivating tastes and source of nutrients good for health.

## CANTINE 4 VALLI

[www.fpwinegroup.it](http://www.fpwinegroup.it)

### MOSCATO SPUMANTE BORGOFULVIA

Cryomaceration. The fermentation is made with selected yeasts at a temperature of 16-18° C. After the charmat method the refermentation leaves a residual sugar that gives to it a fantastic fragrance. ## OFFICINA NATURAE

[www.officinaturae.net](http://www.officinaturae.net)

### GIFT BOX CO.SO. BOOST OF LIFE

A beauty gift box for those who love a dynamic and plastic free lifestyle. It includes two products plus an accessory from the CO.SO. Solid Cosmetics for daily hygiene: a revitalizing solid body wash, a CO.SO. natural hemp glove and a Deo CO.SO. 'Brioso' Verve. Revitalizing solid body wash cleanses in a delicate way: its organic extracts of black tea and willow favor microcirculation and cell renewal. The efficacy of solid deodorant Deo CO.SO. Verve, due to the exclusive impalpable bicarbonate, is enhanced by triethyl citrate, which prevents the proliferation of bacteria. The hamamelis extract also acts with a slightly astringent action. Fragrant notes of citrus characterize both solid products.

#### Packaging and size

Cardboard box with: CO.SO. Revitalizing solid body wash: FSC mix cardboard box - 64 g; Deo CO.SO. 'Brioso' Verve: 100% recycled aluminium jar, FSC mix paperboard outer sleeve - 50 ml; CO.SO. Natural hemp glove: no pack - 9,5 x 11 cm

#### Shelf life

30 months. Pao: 6 months

#### Certifications
