# Rizzoli Emanuelli: a 115 year-old history

**'Ante Lucrum Nomen' (Reputation before profit) has been the company's motto since 1906. Year of foundation of the most ancient Italian anchovy producer, now in its 5<sup>th</sup> family generation.**

For 115 years, the Rizzoli Emanuelli family has been a benchmark, in Italy, for the art of fish canning. A passion started in 1871, when Luigi and Emilio Zefirino Rizzoli established the first factory in Turin, and then moved to Parma in order to learn the newest preservation technologies. Thus, in 1906, Rizzoli Emanuelli & C. was born. Now in its 5th family generation, it is the most ancient Italian anchovy producer.

## Quality always comes first

'Ante Lucrum Nomen' (Reputation before profit) is the motto around which the Rizzoli philosophy revolves. For the company, product quality has always come first. Indeed, Rizzoli uses anchovies of the

prestigious *Engraulis Encrasicolus* species, native of the Adriatic and Cantabrian Seas, which are only fished during the springtime using the 'purse seine' fishing technique, respectful of the marine ecosystem. The fish is hand-processed on-site within a few hours. Rizzoli Emanuelli anchovies are guaranteed by the 'Tradizione consapevole dal 1906' (Mindful tradition since 1906) distinctive trademark, which is based on three pillars: fishing sustainability, traceability of the supply chain - from the fishing boat to the shelves -, and product quality. Rizzoli Emanuelli was the first Italian anchovy producer to receive the MSC sustainability and traceability certification.

## RIZZOLI EMANUELLI'S ANCHOVIES: MADE FOR GOURMET LOVERS

The raw materials, the artisanal taste, the patience, in a word: the expertise. This is the secret of fish seasoning, according to Rizzoli Emanuelli. For 115 years, anchovies have been salted in barrels and left to season in the cells of the Parma factory, and only after six months, when the perfect taste and consistency is reached, they are ready to become Rizzoli Emanuelli anchovies. This tight bond between tradition and innovation has allowed Rizzoli to be considered as a 'premium' supplier, with its vast range of canned anchovies, mackerel and tuna. On global markets, Rizzoli has a consolidated presence in the USA, Canada, Japan, Brazil, and Europe. The company's growth abroad has been enhanced by a premium-quality offer, made of certified gourmet products. Among the most remarkable: **the anchovies in spicy sauce**, whose secret recipe has been passed on only to the eldest son of the family for 115 years, but also the **anchovy fillets in extra-virgin olive oil**, the 'Cantabriche' and the 'Rizzoline of the Adriatic Sea', now in an innovative transparent tray with high oxygen barrier.

# CECCO & MAMI: back to the future

The new red and a white wines by Il Poggiaarello - premium brand of the Cantine 4 Valli winery - are born. To become the 'ambassadors' of Piacenza around the world.

The most forefront wines of Il Poggiaarello come from the oldest vineyards: the two new-entries, Cecco & Mami, have been created to pay homage to the winery's founders. "We invented something new by searching our past, among black-and-white photos and the stories of those who were there when our business started in the late 80s," the company explains. Cecco is a structured red wine made from Barbera, Bonarda and Cabernet grapes, and Mami is an IGT Emilia white wine made with Malvasia di Candia aromatica. One part of the grapes is late harvested and then aged in wood. "We wanted to break the classical patterns, to find a new way to make past and future communicate with each other - the winery adds - in order to take Piacenza away from Piacenza, to express the passion, the beauty and the excellence existing in our territory through our wines."
